Towing hitch (without electrical set)

Class: A50-X	Cat. no. G20
Designed for:	
Manufacturer:	RENAULT
Model: SAFRA	ANE
Type: 5 doors	
produced since	04.1992 till 12.2001

Technical data: D-value: **8,91 kN** maximum trailer weight: **1600 kg** maximum vertical cup mass: **75 kg**

Approval number according to Directive 94/20/EC: e20*94/20*0644*00

Foreword

This towing hitch is designed according to rules of safety traffic regulations. The towing hitch is a safety component and can be install only by qualified personnel. Any alteration or conversion of the towing hitch is prohibited and would lead to cancellation of design certification. Remove insulating compound and underseal from vehicle (if present) in the area of the matting surfaces of the towing hitch. The vehicle manufacturer's specifications regarding trailer mass and max. vertical cup mass are decisive for driving whereat values for the towing hitch cannot be exceeded.

D-value formula:

$$\frac{\text{Max trailer weight [kg]}}{\text{Max trailer weight [kg]}} \times \frac{\text{Max vehicle weight [kg]}}{\text{Max trailer weight [kg]}} \times \frac{9,81}{1000} = D [kN]$$
